

Building Boats

建造船隻

What floats a boat? The second graders put their heads together to design, build, and test their boats.

一艘船如何漂浮在水面上？二年級學生一起集思廣益設計、建造並測試他們的船隻。

PLAN

Discussing different boat designs and materials for their boats.

探討不同的設計及所需材料。

TEST

Testing our boats in the water to make sure it floats and holds weight.

測試我們的船，並確保它能夠漂浮在水面上且能承受重量。

CREATE

Working together to build the boat we have designed.

一起建造我們設計的船。

REFLECT

Reflecting on our designs and results.

反思我們的設計以及測試結果。
