# The Gains and Reflection

## 收获和反思

Planting trees, picking up garbage, fishing at night, this pile piece can't be done or what I want to accomplish. In Maldives, I practiced it. However, what I can't forget after practice is that it is not easy to plant trees, but there are people who want to destroy the environment; picking up people's hard work, but there are people throwing garbage; fishing people are tireless, but there are people who waste food. Our volunteers are to do it without regrets, to implement it step by step, and to maximize the benefits of these volunteer activities.

种树，捡拾垃圾，夜间垂钓，这桩桩件件我平时无法完成亦或想要完成的事，在今天，在马代，得以实践。然而，实践之后令我无法忘怀的是：植树人不易，但还有人去破坏环境；捡拾人辛苦，但还有人乱扔垃圾；钓鱼人不懈，但还有人浪费食物。我们义工就是要无怨无悔的去做，一步一印的去落实，把这些义工活动的所益之处最大化。0(∩\_∩)0
