

## A Postcard to Mom

### 給媽咪的明信片

"Mother's Day is coming up soon. What are you buying for your mom?" Actually, sending a postcard to your mom for Mother's Day is also a great way to show your affection.

What did you write on the postcard?

Mom, I love you.

Happy Mother's Day.

This month Grade 1 and 2 students were at our KCIS post office. They were excited to write postcards and send them home to their moms. First, they learned the typical layout of postcards and then translated their home address into English. Once the lovely messages to their moms were finished, they put the postcards into the mailbox for delivery.

「母親節快到了，你要為媽媽準備什麼呢？」事實上，母親節寄張明信片給媽咪也是個表達心意的好方法。

這個月，一、二年級的孩子們來到英語村郵局，興奮地寫了明信片並寄回家給媽媽。過程中，他們不但要學會明信片的書寫格式，更要挑戰把家裡的住址翻譯成英語。在寫完想對媽媽說的話後，孩子們將明信片放入郵筒中郵寄回家。

How can I help you today?

I want to send a postcard to my mom.

Where does your mom live?

She lives in Miaoli.

## Writing a Friendly Letter

### 給好友的一封信

When it comes to getting in touch with a friend, most people will choose a text message or a social media message; however, nothing beats a genuine, handwritten letter.

This month at English Village, Grade 3 and 4 students were at our KCIS post office, learning how to write a friendly letter and the correct letter format, including the heading, the greeting, the body, the closing and the signature. They wrote something about what's happening in their life, what emotions they've felt, and what plans they have for the future.

與朋友聯繫時，大多數人會選擇簡訊或社交軟體傳訊息。但是，沒有什麼能比得過誠懇的手寫信件。

這個月，三、四年級的學生來到英語村郵局學習寫信和正確的信件格式，包括抬頭、問候語、本文、結語和簽名。信中提及了一些關於生活中發生的事情、個人感受以及孩子們對未來的計劃等等。

Can't wait to mail the letter to my friend.

My friend lives in Hsinchu.

I have one more step to go. Mail it!

Writing a friendly letter is so much fun.

Which mailbox is for overseas mail?

I know!  
The red one.

## Mailing a Parcel

### 郵寄包裹趣

This month at English Village, Grade 5 and 6 students went to our KCIS post office, practicing how to mail their parcels and computed mailing costs based on weight.

Students acting as customers consulted with the post office clerks about how to mail a parcel with some fragile items inside and asked how much it costs. On the other hand, the clerks helped their customers to take care of some business. They weighed the boxes, calculated their shipping costs, and informed them of the shipment duration.

本月五、六年級的孩子們來到了英語村郵局學習如何郵寄包裹，並依據重量計算郵寄費用。

扮演顧客的孩子們向郵局人員諮詢如何郵寄含有易碎物品的包裹及運費。另一方面，郵局人員也要幫助顧客處理相關事務。不僅要將箱子秤重、計算郵寄費用，並且告知多久會送達。
