

## All About the Weather!

### 關於天氣！

Our third graders built wind vanes in the first term and will make rain gauges as part of their weather studies where they learn about evaporation and different types of precipitation.

三年級學生先製作風向儀，並將製作雨量計作為研究天氣的一部分，學習蒸發和不同的降水類型。

Students designing their wind vanes.

學生設計風向儀。

This is what the final product looked like, after a lot of hard work.

經過了努力，完成最終作品。

Students setting up, and checking their wind vanes using their compasses.

學生進行設置，並使用指南針檢查風向儀的準確性。

Students observing the wind's direction.

學生觀察風向。
